

Meet the Doctor

Growing up, Dr. Ryan was rarely found without a black-eye, a broken bone or two, or stitches. It is speculated this is what paved the way to his career in the health care field. Dr. Ryan has always had a passion for helping people and chiropractic has given him the perfect outlet to love and dramatically change the health of his community.

A regular visitor to a chiropractor since the age of 15 with his family, Dr. Ryan is experienced in chiropractic as a patient and a practitioner.

Dr. Ryan Osborne is a 2003 graduate of Parker College of Chiropractic, in Dallas, Texas where he earned his Doctorate of Chiropractic as well as his Bachelors in Anatomy.

Before moving to Round Rock, Dr. Ryan lived in Kingwood, Texas and associated for two years in one of the most successful chiropractic offices in the state. In this setting, Dr. Ryan learned to be effective, efficient, and loving in order to maximize the health of the community he serves.

Dr. Ryan specializes in corrective care. He travels thousands of miles each year training and working with chiropractors around the world on the latest in chiropractic to better serve his patients.

He is trained in multiple techniques and utilizes the Pierce technique for spinal correction and wellness care. This technique applies gentle, but specific force to predictably correct spines and allow 100% brain to body communication. He is one of only six in the state of Texas who specializes in this technique.

Dr. Ryan and Team OFC are committed to continuous education to provide the latest and most up to date protocols in health and wellness to all patients.
